

QUALITY POLICY

VARADERO VALENCIA' s policy on quality control is base don the following:

- The satisfaction of the client for the work carried out
- Experience and staff training as factors for the success of the company.
- The continuous leadership of Management as the guiding element of the management.
- The team is the main asset of the company.
- Continuously improve the environmental management system for the improvement of environmental performance, environmental protection, including pollution prevention.

To achieve these Management Commits itself to complying to the following objectives:

- Comply with the technical and specific requirements affecting the activity.
- Our activities will be aimed at delivering products and services with the committed quality.
- Collaboration and cooperation with our suppliers as a success factor and value creation for our customers.
- The organization must always be ready to adapt to innovation and change.
- Promote teamwork as a means of sharing knowledge and skills.
- Management is the main driver of quality management and environmental protection within the company.
- Focus on continuous improvement as a way to increase our productivity and competitiveness.
